SECOND ANNUAL PUBLICATION
HALIFAX COUNTY JUNIOR HIGH SCHOOL
HALIFAX, VIRGINIA

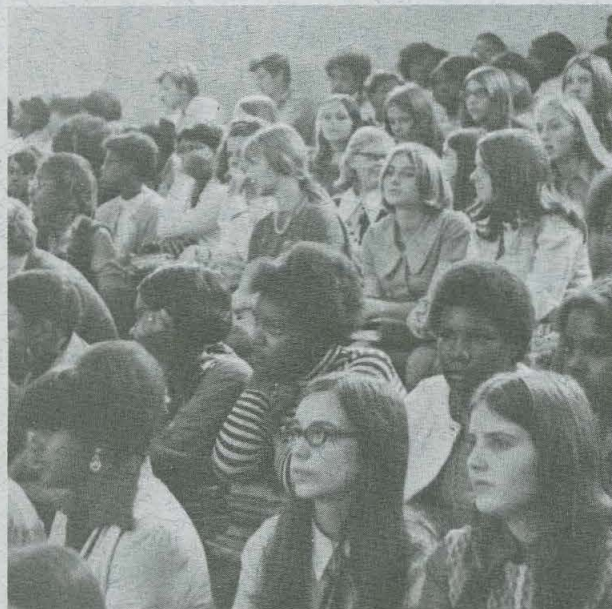

riend.

Growth

On Sept. 7, 1971 each individual of HCJHS entered a gymnasium crowded with others. Many didn't realize what they were there for--- growth and an ultimate change. To many the thought of growth never occurred. But it happened to all at HCJHS '72.

The mind is broadened with knowledge about ourselves and subjects that concern people and the world in which they function. We all grow together but each in a different way.

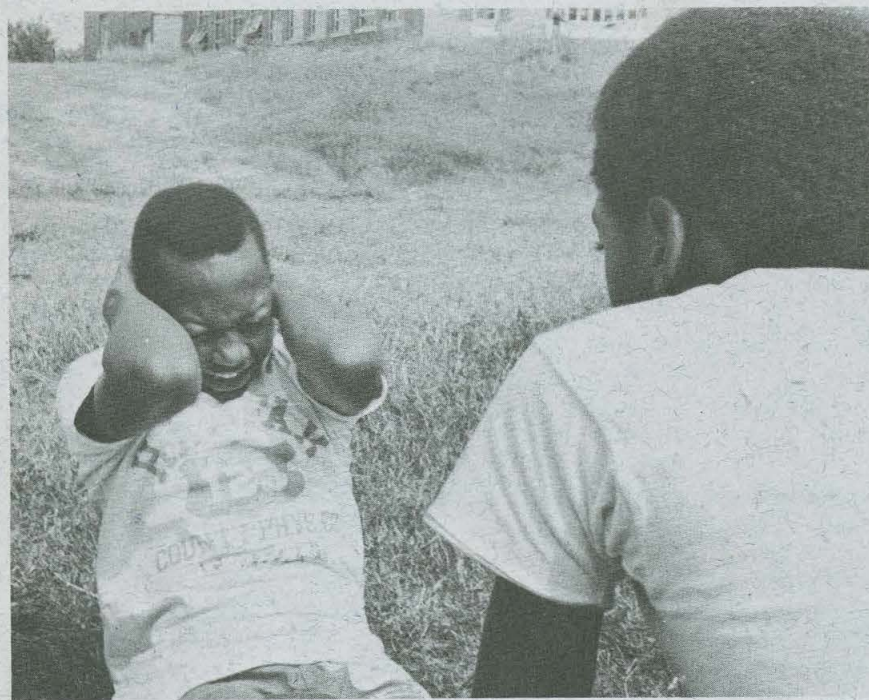

Singly ... or in
Groups,
Cliques,
Mobs, ...
Each is
An individual.

Socially---
by being with people
and learning to cope
with new and challenging
situations,
by learning how to be a friend.

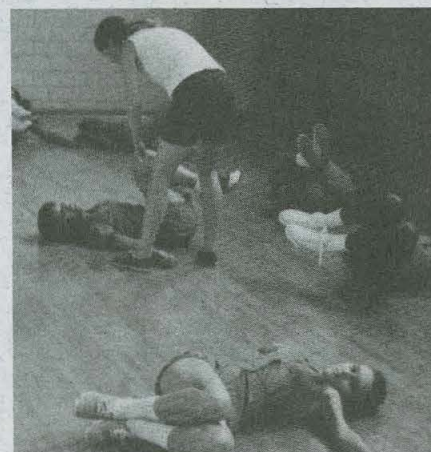

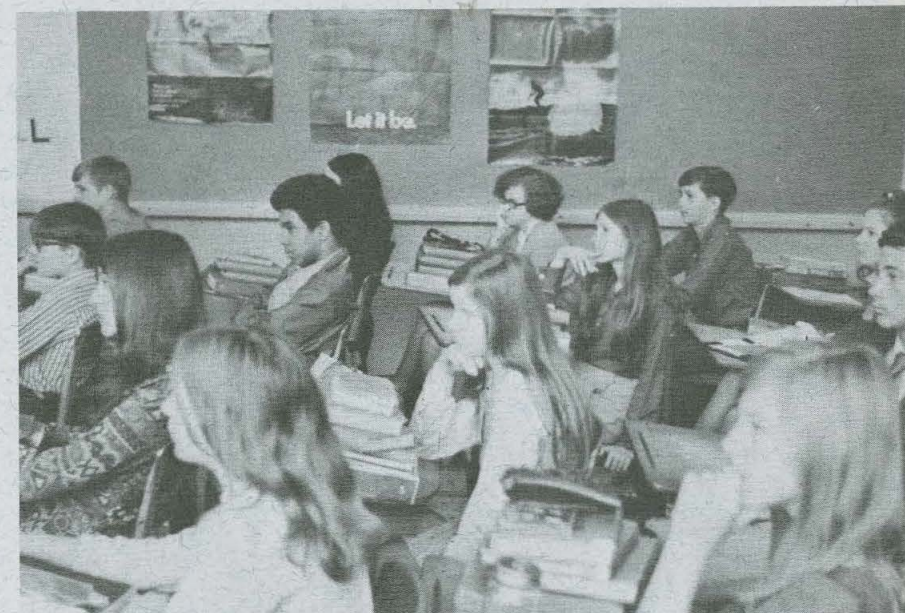

Spiritually---
by developing our own
ideas,
principles,
attitudes
from what we see and do.

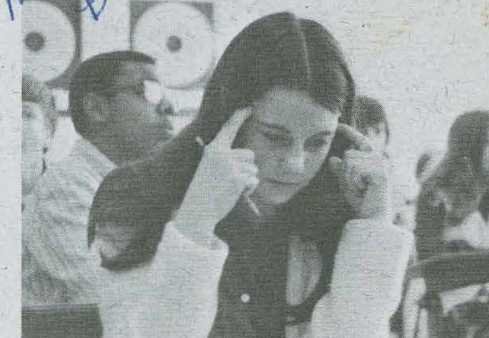

Physically---
by doing sit-ups,
push-ups,
pull-ups,
running,
exercising,
sweating,
striving
for some yet-unknown goal.

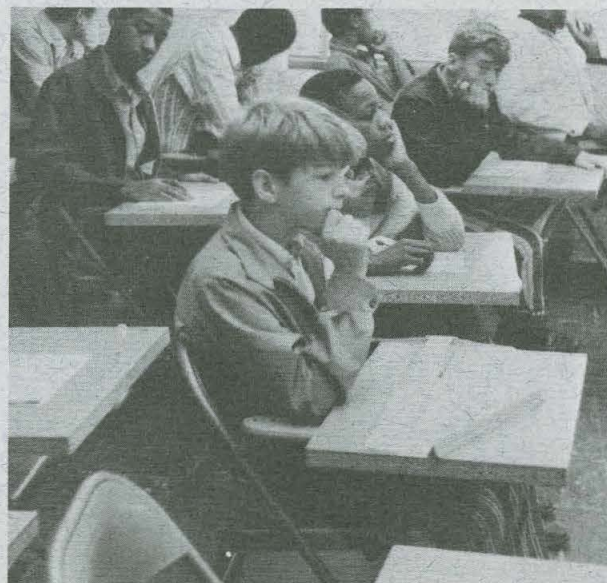

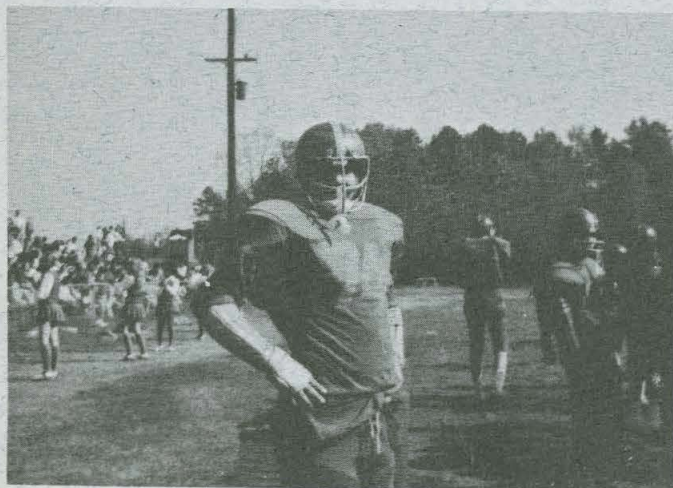

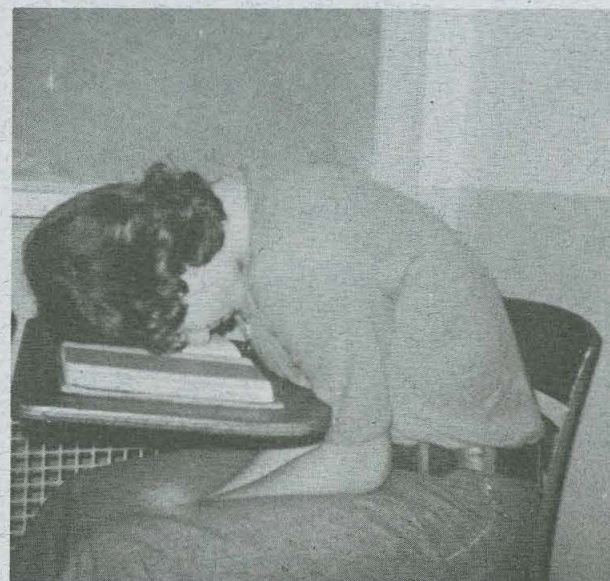

Scholastically---
by learning, remembering,
repeating, discussing,
listening to the teacher
and to each other
Unaware that all this
"stuff"
is leading
to an understanding
of self and world.

To A
next guy,
Best of Luck
Much Happiness.
Behave yourself?
Love,
Gracie

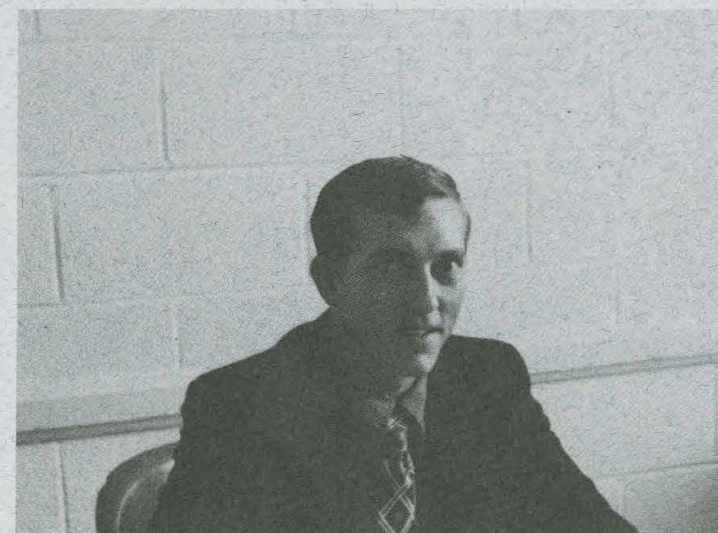

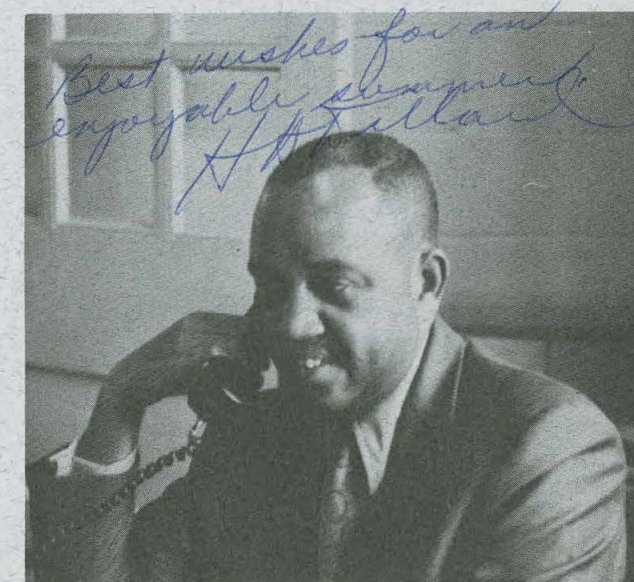

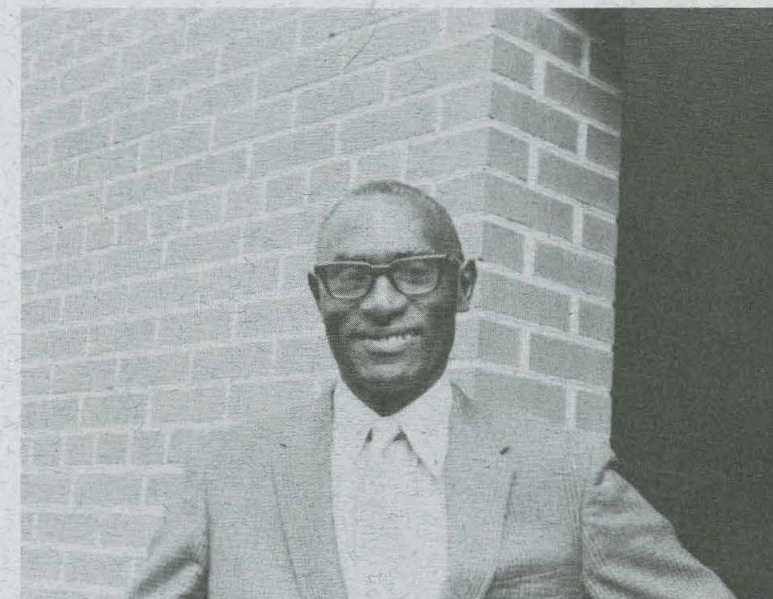

Each grows in his own way.
 each sees the world
 from a different viewpoint.
 Whether from behind a test
 tube, through a microscope,
 around a football,
 by music or art,
 all want to become
 a significant part.
 Each searching
 for a way to find
 his place.
 No matter how minor or major
 the place is
 one must grow and change
 in order to find
 and fill it.

Administration

Four leaders---
 setting an example,
 wanting to help,
 insisting on discipline,
 helping youth grow
 by standing up
 for what they believe in.

Four men---
 to be admired,
 respected,
 appreciated,
 thanked
 for caring about
 the growth of youth.

Science

Science is a trip into the unknown,
Finding out what things are made of,
How they work, and why they work that way.
It stretches from the center of the earth
To the stars.
In our quest to explore
The fields of science,
We find out that the more we learn,
The less we know.

Math

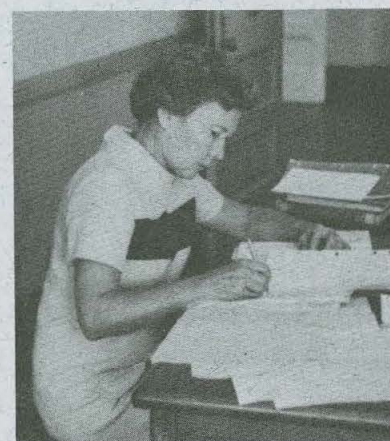

Math. . .
confusing, boring, difficult.
All have been applied to
Mathematics.
Contrary to popular belief
math is a door to the future

because everyone,
one time or another,
will find the need for it,
balancing a budget,
paying taxes,
putting man in space.

Social Studies

The study of
the land on which we live,
the people who came before us,
the government under which we live.
A preparation for the future
through learning how
to examine timely issues,
to examine timely issues,
to understand foreign cultures.
A basic understanding of the world

Music, Art And Typing

Singing. . .
playing an instrument. . .
knowing you're making music,
this is what it's all about
to teach music.

Art. . .
a way of expressing oneself,
a way to expand,
an outlet,
a means of escape
from day to day life.
All resulting in
never ending growth.

A skill is learned. . .
a knowledge is aquired. . .
agility, concentration,
and the ability to think quickly
and react to out thoughts in
the same manner.
In these ways we grow and
develop in new pathways.

Cheerleaders

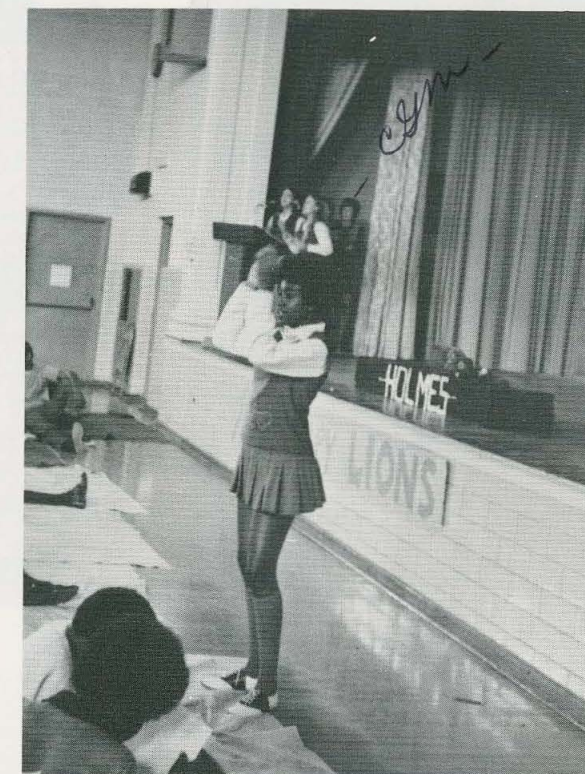

Full of enthusiasm and spirit, wearing both smiles and frowns, maybe even shedding a tear of delight, the 71-72 freshman cheerleaders stood by their men through wins and losses, supporting their Lions on both home court and opponents' and at Halifax County Senior High for the Homecoming game. Not stopping at cheering. . . selling stationery, shakers and candy, selling smile buttons, and giving away smiles. The enthusiastic girls raised money and spirits to promote a successful football and basketball season.

Basketball. . .
 agility, strength, poise,
 height, speed, brains,
 a game of fast reflexes,
 instantaneous decisions,
 never giving up.
 Doing your part with all your being
 to make a great game better.
 Always there is the crowd
 ready to cheer and urge victory.
 Without them, the game would be lost
 before it began.
 No thrill in victory alone,
 more agony of defeat not shared.
 Team and crowd sharing it all
 help each other
 grow.

Science Club

Science,
Man's natural instinct to ask "Why?"
And to keep searching for new discoveries.
The Science club brings out these instincts.
What does the science club do?
Trips to exciting and educational places,
Sponsoring science fairs,
And making our school beautiful.

The science club inspires a person
as he walks through a valley.
Each blade of grass,
each ray of sun,
will have a whole new meaning to him.
As he becomes a bigger part of the world
he will never lose his inspiration
and desire to find out.
He will always ask "Why"

One...
single...
individual...
Yet in the midst of 1600.
What makes me me?
My own attitudes, feelings,
personal experiences and dreams.

But wait,
That's what we all are.
All equal, all alone,
But all here together.
Each of us has a place
somewhere.
But to find that place
we have got to care enough to try.
We need each other
to form a place of which we can be truly proud.
We need each other
in order to grow.

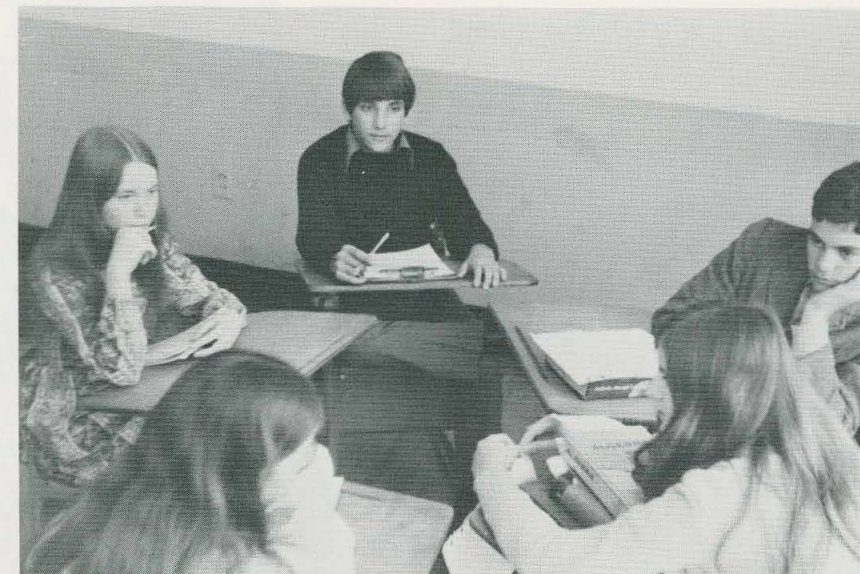

How can I be alone when
constantly surrounded
by hundreds?

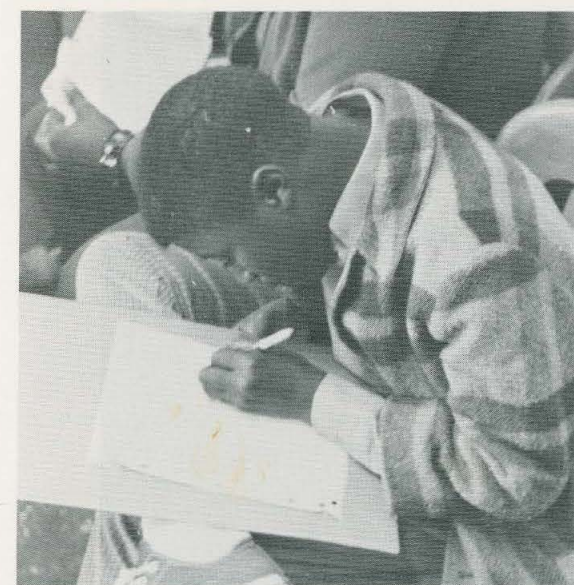

Do I care enough to
want to do my part?

But what is my part?

How can I find out?

Reaching out,
searching,
wondering,
but for what?
I don't want to be only another
number in a group.
I want to be significant.
If I only knew how to achieve
this ultimate goal.
I'm only human.

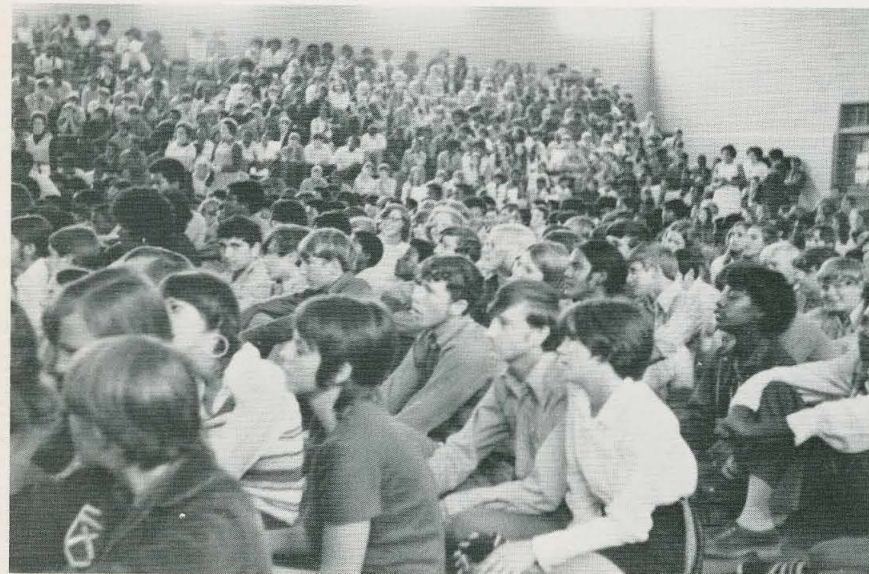

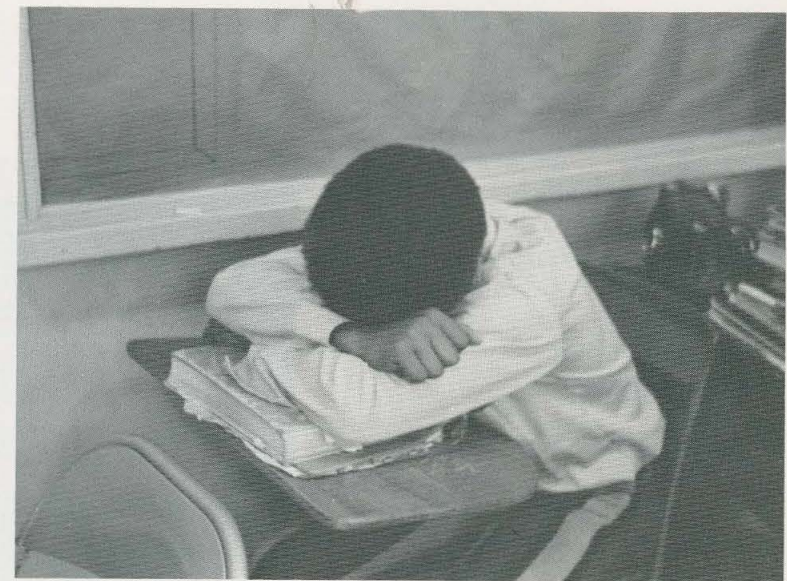

Thoughts from students
express their feelings
about this school and
the influence it has on their lives.

The first day. . .
a beginning,
new classes and friends,
an entirely new environment.
Summer was over.
It was back to the
grindstone for all.

Loneliness. . .
Never wanted
but ever present.
Impossible to avoid
forever.
Alone in a crowd
of 1600.
How can this be?
By simply being myself.

"Old faces, new faces,
trying to recapture
school life."

"Shocking. . .everyone
had sparkling faces and
happy smiles."

"Loneliness is a common thing in this school."

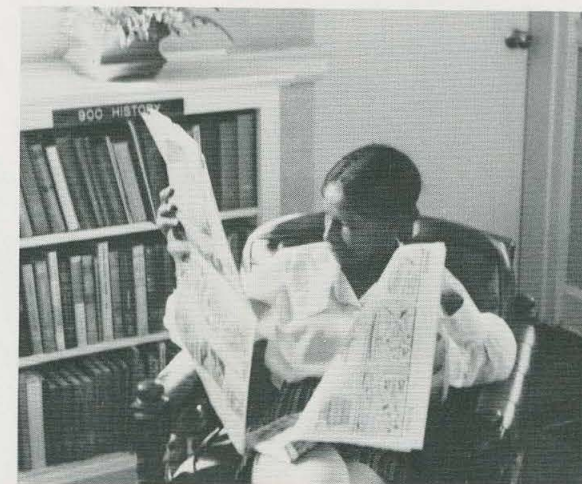

"I pretended to be calm and know
my way around the place."

"A pile of trouble, confusion,
excitement, and fun."

"Scarey! I was late for every
class for a week."

"A different place, not the same
without the old faces."

"Like a lonely star in the vastness of
space or the tallest blade of grass in
an entire field because one gets the
feeling no one cares."

"Lots of time I feel alone--like I'm
in a vacuum. It's like the whole world
has left me behind."

Classes and their materials influence students. Books, current events, discussions, essays form the molds of our minds.

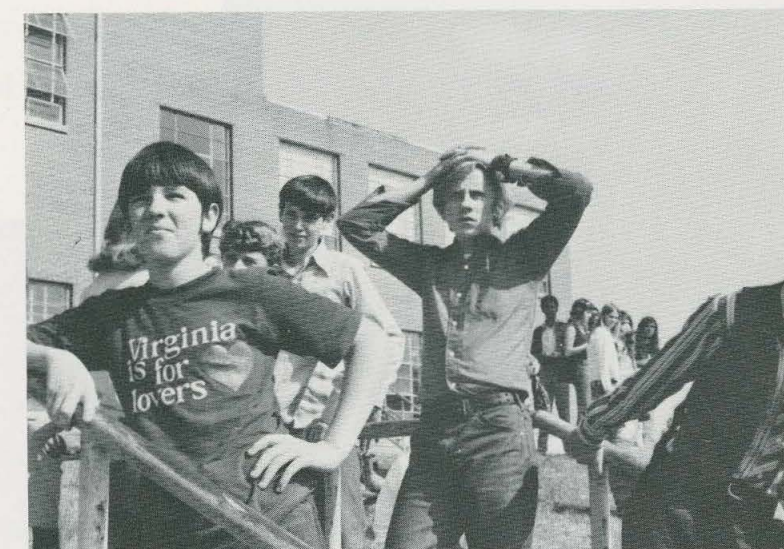

Growing and changing happen everyday at HCJHS. We all come to learn and expand which lead to growth and change.

"I have learned things here that I would never learn anywhere else, things that go a lot further than what I get from a book."

"They are the foundation on which I shall build my life. And I think that's pretty important."

"It makes me really stop and think about what I want from life."

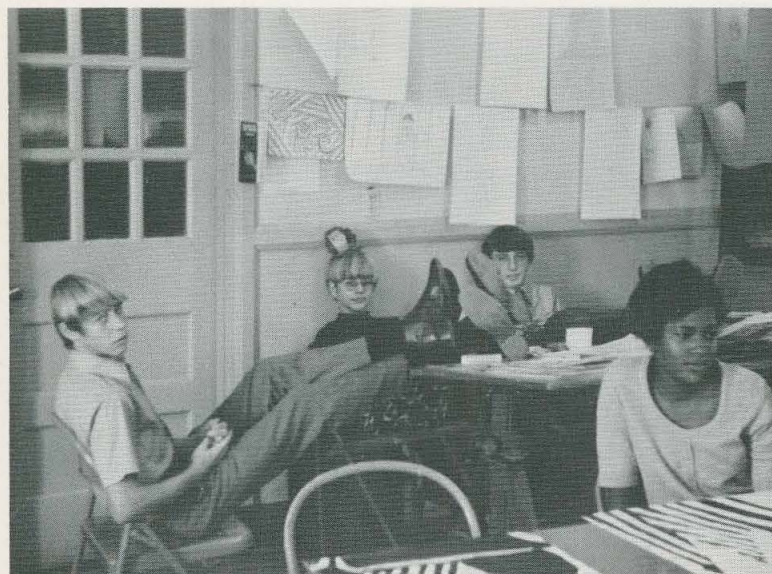

"They're everything. Without these things here would be no decent future."

"I've found out that there are more people in the world than those near my home and they, too, are ready to be my friends."

"From grammar school to jr. high is a big change, and we must change with it."

Friends at HCJHS. . .
plan the course of the day,
add highlights to dull weeks,
and even shape our lives.
Laughter, fun and
help from our friends,
all bind us closer together.

"They are what makes me not give
up. . .give me the power to try
again."

"Without friends school wouldn't
be any fun."

Teachers---
different students
have different opinions,
impossible to put
all under one classification,
each is an individual
and has his own characterisc
here to assist in
any way they can.

"I've come to realize they're human."

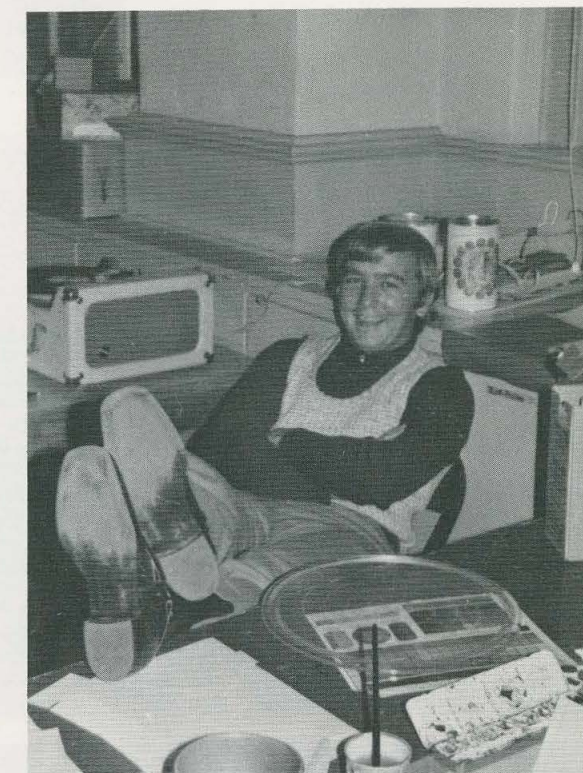

"Friendly"

"Friends, enemies, allies, and half of the time
just as crazy as the students."

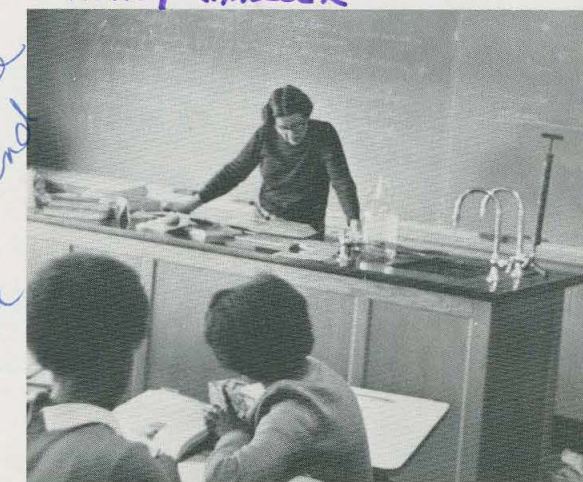

"The building contractors of our minds."

"Teachers are nice but they sure believe in
homework."

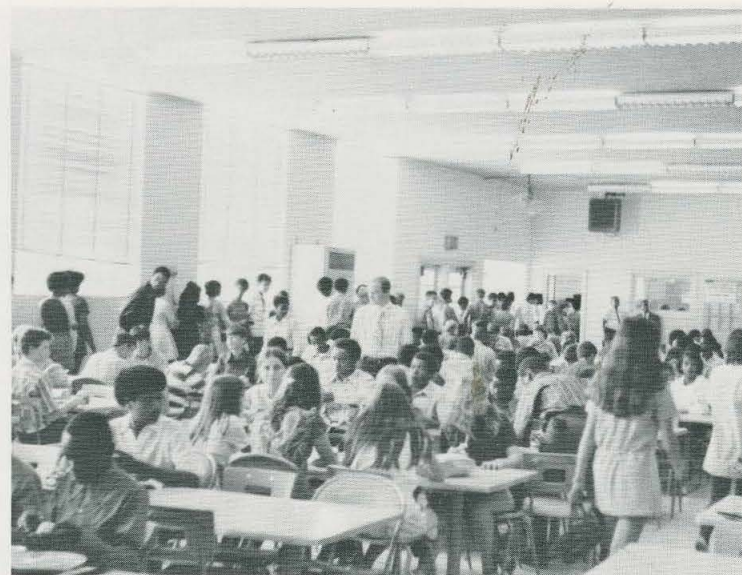

Mary Alcock

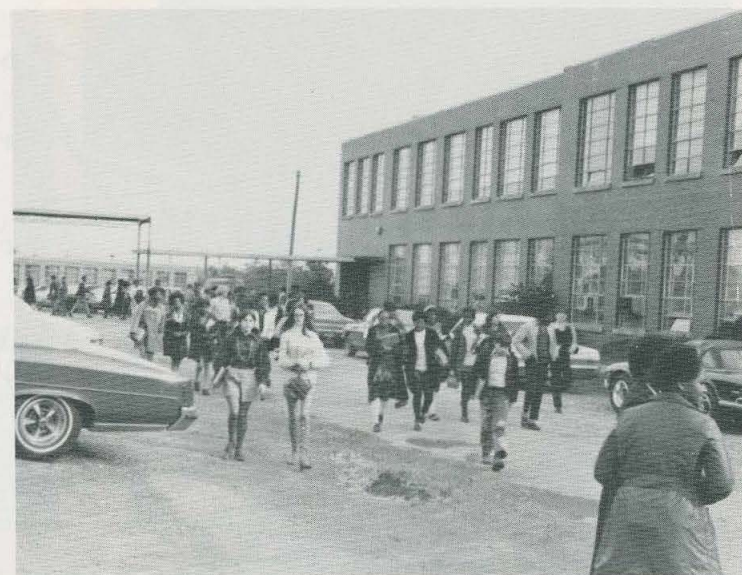

Good humor is
the sunshine
of the mind
J. Powell

Hall traffic, buses, cafeteria. . .
all the most confusing parts
of the day,
people, people, people,
long lines, pushing, crowding. . .
Hurry or you'll be late!

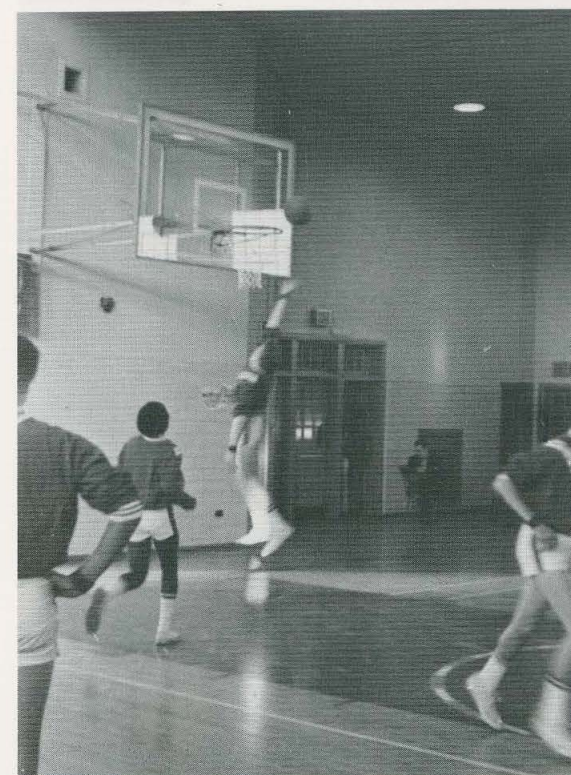

"Halls--really troublesome
if you're smaller than every-
one else."

"The traffic is ridiculous
especially when the crowd
carries you where you don't
want to go."

Sports and physical education
produce a feeling of belonging,
create enthusiasm,
promote school spirit.
They are relaxing, pleasant,
and bring about
fellowship
for all.

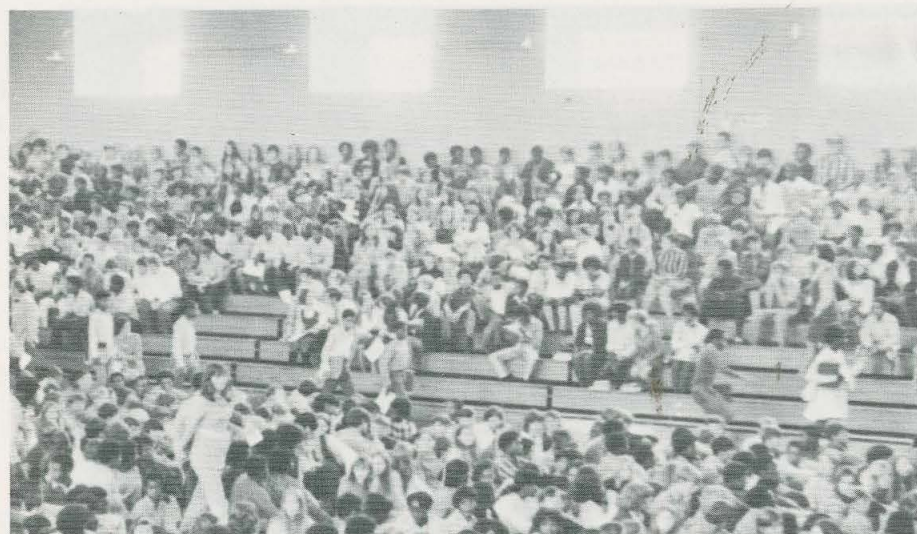

"I love sports and wish more were
offered to girls."

"Give me a chance to get away from
it all."

As they left HCJHS for the last time, their minds
were full of all the memories of the two years spent
here.

Deep inside there is a feeling of fear and
curiosity as they wonder, "What will the
future be like?"

We grow in mind--in spirit, Now
there's no turning back, we must
continue on and on until we reach
success.

EIGHTH GRADE

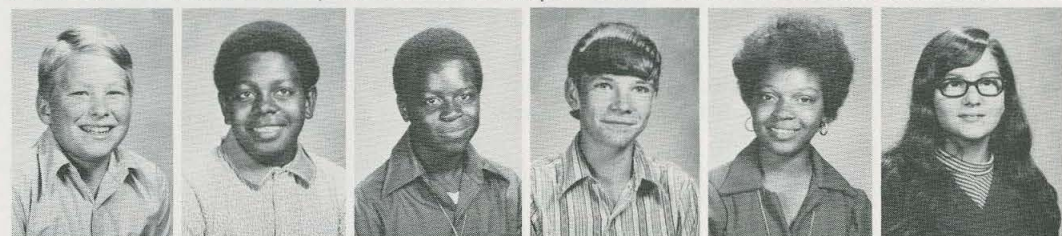

Eighth graders felt itchy, scared, and curious as they left the tranquility of grammar school and stepped into a whole new world of teachers, students, different buildings and schedules, strange faces in each room, lockers, baskets, gym suits.

they took with them
all the memories of the first year
and the dreams of the future year
when they will be
the masters of HCJHS.

As I walk
down the empty halls
at the end of
another year,
I realize many new things.
The rooms, lockers, people,
even the walls seem to have changed.

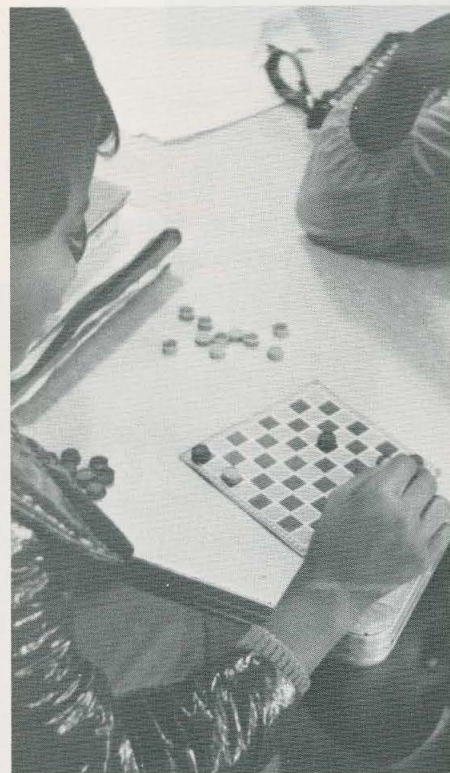

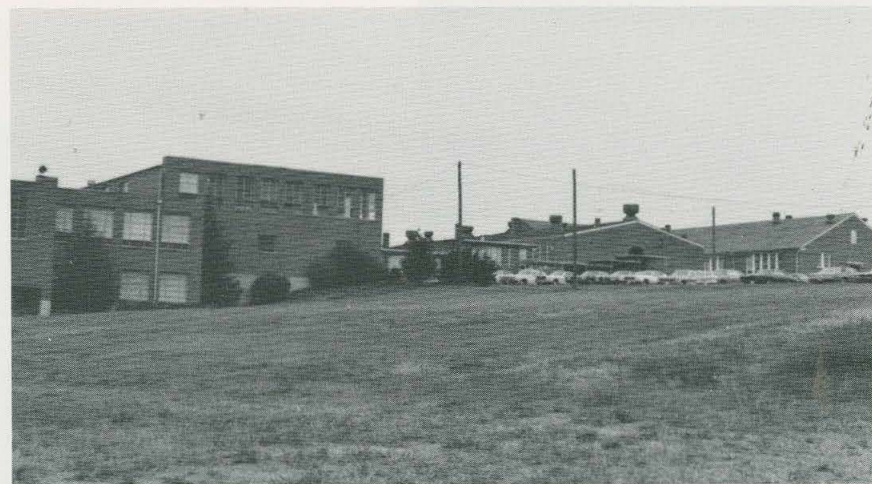

Maybe it's because
this is the first time
I've actually seen the walls.
Usually they were so crowded with
friends, books, and laughter that
I never noticed the walls which
surrounded us.

In a way it seems sad to think
that what once was, never will be again.
But nothing stays the same forever.
Everything changes
and grows.
But what makes the changes?
Rooms and walls don't simply change overnight.
People don't either, for that matter.

People do change
as they grow.
They become more aware of
surroundings and other people.
They grow accustomed to
the way things are,
but yet they want a change.
What could cause this longing?

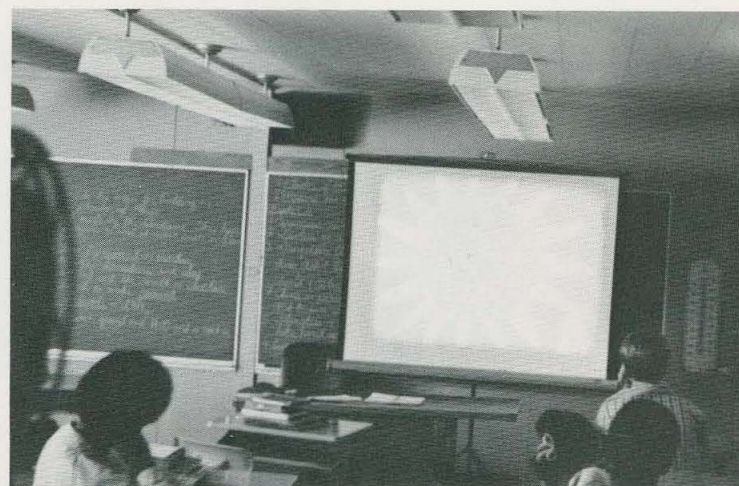

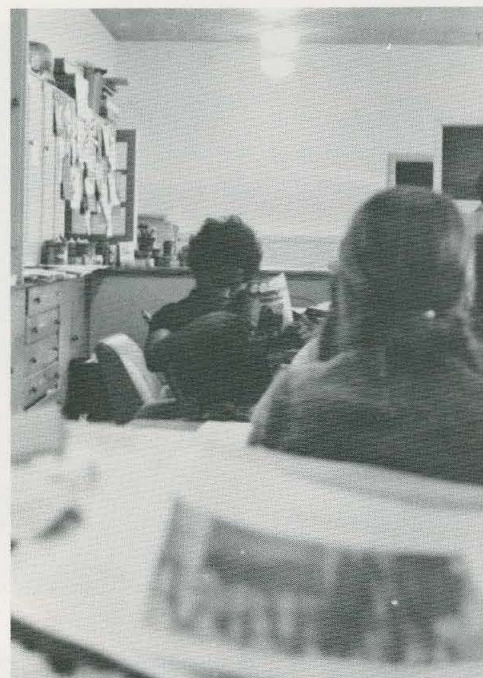

Do you suppose they want to
expand, reach out, strive for the
common goal. . .
growth and success?
Who could ask for or dream of
anything more?

This is the end of
a beginning.
All we have learned here
will go with us through life,
whether at HCJHS another year
or in a new environment.

Memories of friends
enjoying laughter or
a serious debate in class,
of feeling school spirit,
and memories of everyday
personal experiences
will all travel with us
wherever we go.

We won't forget you
HCJHS,
and we hope we have left
behind something for you
that is worth remembering.

To a nice guy
sometimes. Wanda Francis

In this past year
you have changed,
learned,
feared,
loved,
developed,
laughed,
cried,
grown.
This page is for
your own
personal
record of growth
at HCJHS '71-'72.

Wayne
It's been fun
having a class with
you, you're crazy
and stay nice, cute, have
fun this summer, see ya
next year. Virginia
Hollard

Wayne
It's been nice having
you in science class this
year. Have fun this
summer. Best of luck

Hi Wayne
you know it really
make me giggle + laugh
to know you want my
autograph a nice idea
Flourie M. Davis

It's been nice
getting to know
you in science class
you're in luck in
the coming
years. Wanda
Clemens

To a
weird
guy. That's
about all I can say
for you, but have a
nice summer and behave
yourself.
See you at home
Kimm
house about.

Wayne,
It's been nice
knowing you. I will
never forget you from
your dumbness. Okay.
Remember me!
Denise

Wayne,
a crazy

Wayne or Curtis
It's been swell
knowing you even if
you did get on my
nerves. (Just kidding) Best of luck,
Diane Williamson

Wayne, 😊 always smile
It's been a lot of fun
having you second and sixth
period. I'll miss you this
summer, but I'll get to see
you next year. Hope we get
some classes together next
year.

Best of luck at everything,
Sarah Lee

Wayne
It has been
fun being in science
with you. Keep up the
good work. Good luck
with the girls.
